

How Government Healthcare will Usher in the Antichrist

And because iniquity shall abound, the love of many will wax cold.

Matthew 24: 12 (KJV) 

Have you noticed that visits to the doctor now center around the computer? Recently, I was quite surprised to look over my doctor's shoulder and witness that he was writing down verbatim everything I was saying! How long has this been going on and for what purpose? Soon, all this data will be merged into a National Healthcare database. **Years ago I reported** how Verichip® (the human implantable RFID tag dubbed the LifeChip®) had partnered with Microsoft and their **HealthVault®** website. Reality check folks, all your medical data is going into that database eventually, if it isn't in fact already.

Let me be clear on this: most doctors have well intentions, but often, are greatly misinformed. Much like the problems of pastors in the seminaries, they are dependent on the system for their knowledge. As such, they have been manipulated. Historically those who tried to buck the medical system like Louis Pasteur were maligned, ridiculed, and labeled quacks. Nothing has changed.

Satanism Rampant in the Medical Field

Doctors and medicine alike certainly have their place, after all Luke was called a doctor. But we can see that like the churches likewise the medical profession has largely been taken over by malevolent forces. At least one reason for this is to procure human blood for their rituals. Just as the synagogue of Satan (modern day Israel) represents itself with the occult symbolism of the hexagram, modern medicine uses the Asclepius and Caduceus symbols. (see article **Asclepius, Caduceus and the Transhuman Agenda**) Many in the medical field are in fact witches. The above photograph was taken in the waiting room of my own doctor. This sign was up throughout the year, so it wasn't just a Halloween decoration. Here in the mountains where I live it is not unusual for people to make it known that they are witches.

New age religious practices such as Yoga are **subliminally promoted through television** as beneficial to good health. Even hospitals are involved under the misleading term of 'alternative medicine'. I was **given a document** when I was discharged from the hospital in 2008 advising that I practice a form of Yoga called Qui Gong “to improve the health and harmony of mind and body”.

The medical system also bears a few disturbing similarities to law enforcement because of their shared high probability of being sued. The thin blue line of silence extends to the hospitals, clinics, and urgent care facilities. Whistle blowers are dealt with harshly, and malpractice covered up.

All Your Bodies are Belong to Us

We need to understand that government healthcare has nothing to do with concern over our well being, but is essentially about the physical control of our bodies. It is about who has the final say in what we do (or don't do) with our bodies. Once our health becomes the business of the state they can choose to do anything they please to us and we'll have no recourse.

Are you opposed to vaccinations of any kind? Tough luck. If you don't want them for yourself or your children for whatever reason you will be told the public safety supersedes your freedom. And they will force compliance if necessary. Make no mistake, under mandated government healthcare your doctor becomes an agent of the

government. His Hippocratic oath will be replaced by an oath to them. He will have the power to order any of a number of 'treatments' for your 'disease'. To be blunt, your ass will belong to them, to do as they please.

**Think not that I am come to send peace on earth: I came not to send peace, but a sword.
For I am come to set a man at variance against his father, and the daughter against her
mother, and the daughter in law against her mother in law. And a man's foes shall be they
of his own household.**

Matthew 10:34-36 (KJV) 

Do you believe your government may not have your best interests in mind? If you insist on not only thinking for yourself, but dare to share these thoughts with others, you will be forced to attend a hearing. Your mental health will be evaluated. Which may result in forced medication and even the possibility of commitment into 'a mental health facility'. Yes, your own family members will turn you in via phone call, text, or social media.

Think you're just going to walk out of your doctors office if you don't like what he is saying? Each of these health care facilities will have an armed security team to enforce compliance.

Ever wonder what all the pop-up media care centers of late are being built for? Because Satan is not omniscient nor omnipresent, his system must be in place before the Antichrist appears on the scene. His mark will be distributed through the healthcare system and even the churches.

What's worse is what's planned for the children. Soon, parents will not be allowed to be in the examination room with their children. This will be done under the auspices of providing a 'safe haven' for them to freely speak out against any abuse they may be experiencing at home. Do you spank your children? Yes, they will ask your children all sorts of invasive questions about their home life. Your rights to privacy has now effectively been eradicated.

Obamacare

Please remember me in your prayers. Unfortunately, I have had a lot of health challenges in recent years, but I thank God that other than a few isolated incidents, I have received excellent care. On occasion I ask my health care professionals what they think of Obamacare and I am surprised by the immediate change in their demeanor. They speak in hushed tones and appear to get nervous and/or frustrated. It is clearly a sore spot for them. An ER nurse confided in me that since government healthcare went into effect there has been a significant increase in their traffic. Slow times for ER staff are a thing of the past. Many want to vent about how between the private healthcare systems, and the government meddling, they feel stuck between a rock and a hard place. Not one person in healthcare I have asked about Obamacare has had anything positive to say.

I am told that when a patient fills out a negative survey form about a particular doctor there has been no way for them to defend themselves, it just goes into their record. One doctor told me he comes into work an hour early just to deal with the paperwork alone and then does the same after work. If he doesn't do it the procedures won't be covered by Obamacare. He indicated to me that the paperwork for him tripled under Obamacare. He is currently making plans for the day he cannot take it anymore. He tells me he will open a private practice in his home for 2 days a week and get another job.

This is no joke folks; all of the good doctors and nurses will inevitably get out of public healthcare and it will be run by those purely in it for the money, and/or the power trip. They will go into private practice. You see, it was always part of the plan to drive the medical professionals who will not kowtow to the government out of public healthcare. Private healthcare will be reserved for the rich, period. What will be left for the lower and middle classes? Unfortunately, there is no shortage of doctors and nurses out there who are incompetent, criminally negligent or just downright cruel. Welcome to government healthcare.

**For I will restore health unto thee, and I will heal thee of thy wounds, saith the LORD;
because they called thee an Outcast, saying, This is Zion, whom no man seeketh after.
Jeremiah 30:17 (KJV)** 

What are we to do, wring our hands in fear? Of course not! Although these things are surely coming to this world, fear not! Look up for our redemption draweth nigh. Stay close to God, eshew sin and repent when you do stumble so that you may be counted worthy to escape all the terrible things that are coming to this world (**Luke 21:36 KJV** ). The harlot church, the foolish virgins will not escape, but we who are faithful now and keeping our eyes on Christ will. We are going to have to put our trust in God to keep us healthy. In addition we must take care of ourselves the best we can.

Many are the afflictions of the righteous: but the LORD delivereth him out of them all.
Psalms 34:19 (KJV) 

Many of us may have to suffer physically. Some already are. But remember Job. God allowed him to suffer in his body for His glory. Will you be found worthy to suffer for Christ (**Acts 5:41** , **2 Thessalonians 1:5 KJV** )?
